Hex-Embossed Containers!

5 POUND DECO EMBOSSED JUG
 CAT# DECO-5
 CASE OF 72 FOR \$67.35 (NO LID) 62 lbs.
3 POUND DECO EMBOSSED JUG
 CAT# DECO-3
 CASE OF 126 FOR \$89.90 (NO LID) 62 lbs.

What a great new 1 lb. container, now with deeply embossed hex cells to match our 3 lb. and 5 lb. Deco jugs. When this container is inverted, it requires a special 38mm 2" cap for stability. This cap has a diaphragm that keeps the honey from leaking and stops the flow after squeezing. Your customers will love this container and you will sell more honey! This container is best for light spring honey or for those that heat their honey, to retard granulation. Can be used with our standard 38mm caps if you choose not to display inverted, but does not look as nice.

IV-16 INVERTED 1 LB. DECO(NO LIDS)
 CASE OF 364: \$146.50 Weight: 62 lbs.
 CASE OF 50: \$26.20 Ship Weight: 9 lbs.

ECONOMY HAZY BULK JUGS

BJ3 3 LB. PLASTIC JUG
 CASE OF 90 (NO CAP): \$53.50 45#

BJ5 5 LB. PLASTIC JUG
 CASE 54 (NO CAP) FOR \$45.75 45#

Great Prices!

PL-5 5 GALLON PAIL
 \$7.75 EACH Ship Weight: 7 lbs.
 Just like our 3.5 Gallon Pail, our 5 Gallon Pails are made of FDA food-grade plastic and come with a tamper evident/gasketed lid (which can also be used with our 3.5 Gallon Pail). Each pail will hold up to 60 lbs. of honey.

PL-35 3.5 GALLON PAIL
 \$7.25 EACH Ship Weight: 6 lbs.
 We are happy to offer this smaller sized honey pail. It makes handling honey much easier. Instead of lifting 60 lbs. (5 gallon pail), try no more than 42 lbs! Much easier on the back when processing or storing your crop! Includes safety-seal strip/gasketed lid (which is also compatible with our 5 gallon pail).

PL-1 EXTRA PAIL LIDS
 \$2.55 EACH (GASKET W/SEAL) Ship Weight: 2 lbs.

NEW!

FULL LINE OF MAPLE SYRUP JUGS

See our website for a full line of Maple Syrup jugs. We stock Ohio, Pennsylvania and All-State jugs in Gallon, Half-Gallon, Quart, Pint, 1/2 Pint and 3.4 oz. Sample. These can be hot-filled and sealed with included locking caps.

We can also do CUSTOM artwork for these jugs and they can also be used for honey or other liquid products.

1G-JUG 1 GALLON PLASTIC JUG
 \$8.50 CASE OF 4 W/CAPS Ship Weight: 7 lbs.
 3-6 ship at 45# Dim.

This is a great jug for your yard rent or for bulk honey sales. Other uses include pollen storage or for feeder jugs. Easy to get your hand or a scoop into. 110mm lids included with each case of 4.

Ship weight: 1#

HTAG-(A/B) RECIPE HANG TAGS

50/PACK: \$12.50 Ship weight: 8 oz.

Designed to hang on almost any honey container, these full color tags feature delicious recipes and tips for using honey. One features colorful, fresh summertime recipes (A) and the other contains information and recipes showcasing honey's versatility as a beauty aid, cough suppressant and energy booster (B).
Actual size is 2" x 2-1/2" folded.

MUTH-16 ONE POUND MUTH JAR
CASE OF 12: \$16.95 Ship weight: 12#

MUTH-8 8 OUNCE MUTH JAR
SEE WEBSITE FOR CURRENT DETAILS.
WE HOPE TO MAKE AVAILABLE BY APRIL.

These square Honey Jars have been around since before 1900. This is the most attractive honey container we have to offer. You will not find a container that looks better for a gift basket or pack. Design on front of jars is embossed. Corks are included with each case.

Visit www.muthjars.com for updated info on our Muth Jar line. We are aiming to have our 4 oz. Muths later in 2012.

NOTE: Glass jars shipped at your own risk. UPS will not insure.

(#LAB-2B)

LABEL ACTUAL SIZE

Our new 2 oz. panel honey bears sells themselves. Perfect for markets, gifts, weddings and tourism! **See Page 3 for bear pricing.** Labels are now available for the bears, with 54 labels on each sheet. Pack of 3 unprinted sheets (162) is \$3. Pre-printed is \$15 for 3 sheets (see above sample). \$5 flat fee for shipping these labels, or add 1# to order weight total.

PSQ-16 16 OZ. PET PLASTIC SQUARE
CASE OF 294: \$159 (W/CAP) Ship weight: 36#
CASE OF 98: \$63 (W/CAP) Ship weight: 12#

Our new 16 oz. (honey weight) square crystal clear plastic container is simply fantastic. One side is wider than the other, so it really adds visual interest. It is an affordable way to display your best infused and creamed honey. Also an excellent jar for chunk honey.

GB-12 12 OZ. GLASS BEAR
12 CT. / \$11.75 Ship Weight: 8 lbs.

We are excited to offer this great glass bear jar. Although the bear is 12 oz. it looks very comparable to a 16 oz. Classic jar, due to its unique shape. We know you will see an increase in your honey sales with this one. Gold metal caps are included.

lids for glass

NEW!

CHT-12 12 OZ. CREAM HONEY TUB

100 CT. / \$49.95 Ship Weight: 11 lbs.
10 CT. / \$5.95 Ship Weight: 1 lb.

Our 12 oz. Creamed Honey Tub makes it easy to package your product. Nutritional label information is pre-printed on the back along with weight information. Top is unprinted, so that you may add your own additional label, if desired. Design subject to change (see website).

BEE-EMBOSSED THIN WALL JARS

These THIN Profile Plastic Jars will make your honey look lighter and sparkle. They are lightweight and unbreakable to ship. Attractive bee is embossed at the tops of the jars and makes a beautiful package. Safety seal plastic tops included. **DO NOT** wash in dishwasher. Should your honey crystallize, it is not recommended to warm honey in these jars, as the plastic will easily warp under excessive heat. The plastic is much thinner than all other plastic containers we offer.

1 lb. - \$11.35 24/case #970 Ship Weight: 3 lbs.

Note: due to box size these jars ship in we can only ship 4 cases at the 12 lb. rate and 6 cases at the 45 lb. rate. Total will be adjusted and customer will be contacted with new total for approval before order is shipped.

2.5 lb. - \$6.25 6/case #972 Ship Weight: 3 lbs.

Note: due to size of box these jars ship in we can only ship 6 cases at the 18 lb. rate and 10 cases at the 45 lb. rate. Shipping will be adjusted and customer will be contacted with new total for approval before order is shipped.

CUT COMB BOX

100 CT. / \$98 #CC-100 Ship Weight: 21 lbs.
20 CT. / \$26 #CC-20 Ship Weight: 5 lbs.

The Cut Comb Honey Box is a clear, hard plastic, sturdy reusable box. Perfect to show off cut-comb honey. Measures 1-3/8" x 4-5/16" x 4-5/16". You will get 4 sections per shallow frame. Let chunks of honey drain on a screen before placing in box. Stack full boxes in cardboard box, cover with a plastic bag and place in freezer for 2 days. Allow honey to warm inside plastic bag before removing. This kills wax worm eggs.

comb honey

Ross Rounds
\$8.00 Rebate
ON EACH SUPER BY 5/31/12

RR-KIT ROSS ROUND SUPER KIT

\$67.95 Ship Weight: 15 lbs.

Ross Rounds are by far the easiest to produce and best looking comb honey option on the market. The bees more readily fill the sections and there is no mess like you will have with cut comb honey. You will have a comb section with an \$8 value with little cost and work! Comb honey is in high demand. Are you ready? Included are super, 8 frames and ring inserts. Purchase 3-7/8" foundation separately, otherwise-super is ready to place on hive!

RR-FND 3-7/8" THIN FOUNDATION

\$5 FOR 8 SHEETS Ship Weight: 1 lbs.

This foundation is specially designed for the Ross Round frames. They are beautiful, delicate, white sheets to make your comb honey the best!

RR-RNG ROSS ROUND RINGS

\$12.50 FOR 64 RINGS Ship Weight: 3 lbs.

You will need 2 rings per section. Less than 18¢ per ring!

RR-CC CLEAR ROSS ROUND COVERS

\$11.25 FOR 25 COVERS Ship Weight: 2 lbs.

RR-OC OPAQUE ROSS ROUND COVERS

\$11.25 FOR 25 COVERS Ship Weight: 2 lbs.

45¢ per cover! You will need 2 covers per section to package your finished rounds and will seal with a label. Most folks use a clear cover on the best side of the section and make an opaque the bottom.

RR-ML

RR-CL

RR-ML MODERN ROSS ROUND LABEL

\$11.95 FOR 100 LABELS Ship Weight: 2 lbs.

RR-CL CLASSIC ROSS ROUND LABEL

\$11.95 FOR 100 LABELS Ship Weight: 2 lbs.

Labels wrap around your round, sealing both covers together perfectly. For less than \$1.57 in materials, you now have an \$8.00 product that your bees packed for you—just like mother-nature intended! You can't beat 'em.

256 8 FRAME ROSS ROUND SUPER

\$67.95 Ship Weight: 14 lbs.

These are specially designed Ross Round supers that hold 7 frames, instead of 8 (these are not meant for 10-frame hives). Includes rings, frames and super. Comes assembled. Purchase foundation separately for \$4.50 for 7 sheets. \$8 rebate through May 31st. on each kit!

RR-FRM ROSS ROUND FRAMES

\$4.25 EACH Ship Weight: 1 lb.

Each frame (2 half frames) houses 4 sections.

CUSTOM PRINTED LABELS

125 Sundance

127 Vase

A professional, attractive label can enhance your ability to sell more honey.

Your product deserves to look its best! We've made our designs with an eye

towards the presentation of your honey to the consumer. Try one of these

beautifully designed labels and watch your sales fly!

HOW TO ORDER YOUR LABELS...

It's as easy as 1, 2, 3!

To place an order follow these few easy steps:

- 1 Choose the design and size using the item number and title.
- 2 Write down the information as you would like it to appear on the label.
- 3 Contact us as you normally would.

It's that simple!

HERE ARE A FEW IDEAS TO GET YOU STARTED...

Use interesting descriptions to draw closer attention to your product. Include the region from which your honey is collected or the different varieties available as well as your name, address and weight. Here are some hints words to try:

- Unprocessed
- Natural
- Goldenrod
- Unfiltered
- Raw
- Blueberry
- Unheated
- Wildflower
- Apple Blossom
- Pure
- Clover
- Early Summer
- From local bees and flowers with help from (your name here)

TIPS

- For the name and address area we recommend 3 lines with no more than 24 characters per line.
- Not all labels are available in all sizes

*Shipping will be charged on total order. For example, if your order 500 of 1 lb. and 500 of 12 oz, the shipping would be \$10.00, not \$16.00.

Great Labels Sell More Honey!

11

SM-H BLUE SKY HOBBY SMOKER
\$30 Ship Weight: 4 lbs.

Great smoker for a nice price. 4" in diameter and 8 3/4" high. All stainless with wire cage. This is the choice of many because it simply works better!

SM-P BLUE SKY PRO BEE SMOKER
\$34 Ship Weight: 5 lbs.
Same great quality as the Hobby Smoker, but 4" x 10".

328 SMOKER BELLOWS
\$13.50 Ship Weight: 2 lbs.

These bellows are universal and can be matched up to any smoker on the market. Simply mark where holes need to be and attach with your screws.

495 BLUE SKY 10" HIVE TOOL
\$6 EA Ship Weight: 1 lb.

Solid hive tool will crack open those boxes with ease, due to the precision milled flat blade. It's a great scraping edge and nail puller as well. Need it? Can't beat it!

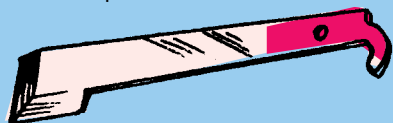

591 ITALIAN HIVE TOOL
\$10.50 Ship Weight: 1 lb.

We've tried all of the hive tools out there and this beats all. It measures 12" L X 1 1/8" at widest and 7/16" at narrow edge. Includes nail puller and frame lifter tool!

9SPCR 9-FRAME FRAME SPACER
10 FOR \$5 Ship Weight: 1 lb.

Placed in a 10 frame super these make uncapping a breeze, as cappings protrude over the edge due to the increase spacing-no more low areas! Not to be used with new foundation-must be drawn out completely before spacing. We currently only offer 9 frame spacers.

762 FRAME LIFTER HIVE TOOL
\$11.95 Ship Weight: 1 lbs.

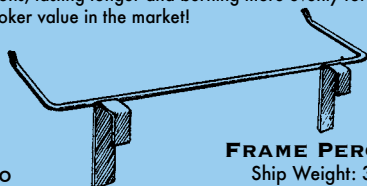

Tool has two cutting edges, which are beveled. These blades will make it much easier to clean off burr comb and propolis. The hooked end will lift out frames, by creating a wedge-works with ease!

SM-SDP "SMOKE DADDY" PRO
\$37 Ship Weight: 5 lbs.

This smoker is ideal for the beekeeper who spends many hours with their bees. The stainless steel chamber is 4" in diameter and the full length (with dome) is 11". As with our smaller sideliner smoker, wire cage prevents contact with hot chamber, oxygenator can be removed and there is a hook for storage or hanging on hive.

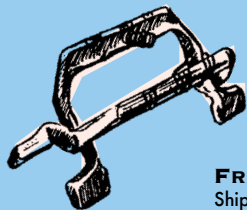

SM-SDS "SMOKE DADDY" SIDELINER
\$33 Ship Weight: 4 lbs.

Same characteristics of the Pro version, except a little smaller. Oxygenator insert keeps fuel burning in between inspections, lasting longer and burning more evenly for the best smoker value in the market!

592 FRAME PERCH
\$24.00 Ship Weight: 3 lbs.

How many times have you tripped over frames you have leaned up against the hive or worried about losing or damaging the queen? No more worries! Attach to long edge of hive and place up to four frames on it.

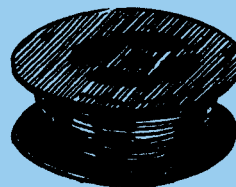

764 FRAME GRIP
\$16.50 Ship Weight: 2 lb.

This frame grip has been around for decades and is still the best tool for getting out those tight, glued up frames. Smooth molded aluminum with spring action. It clamps the frame snugly for easy removal.

700 FRAME CLEANER
\$5.25 Ship Weight: 4 oz.

This handy little tool will really get out those tough spots of wax and propolis on your frames, tools and queen excluders. It is especially useful when preparing comb honey.

691 1# FRAME WIRE
\$6.00 Ship Weight: 2 lb.

Used to crosswire wax foundation to prevent sagging. Ours is 28# tinned carbon steel. The wire is so small, that when imbedded bees will not be bothered. 1/2 lb will wire 100 frames.

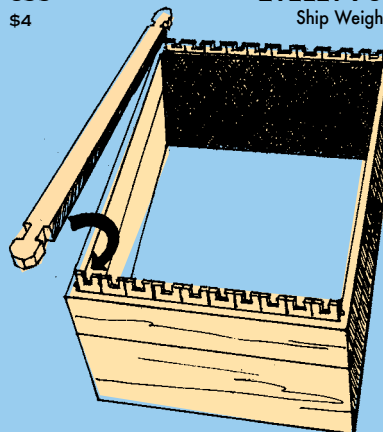

N692 SPUR EMBEDDER
\$8.95 Ship Weight: 1 lb.

We found this new Spur Embedder last year and highly recommend it. The brass embedding wheel has a groove for the wire to run in holding it much more securely. On either side of the groove are small "grippers" which embed the wire much better. This is a great improvement over what we had offered last year.

698 EYELETS
\$6 FOR 1,000 Ship Weight: 7 oz.

Eyelets are small metal fittings placed in the holes of end bars to prevent the frame wire from cutting into the endbars. Ours are paraffined for easy handling.

699 EYELET PUNCH
\$4 Ship Weight: 8 oz.

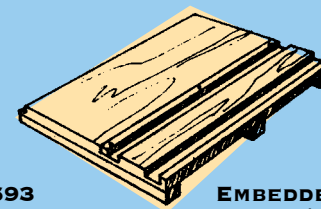

911 FRAME ASSEMBLY JIG
\$35 Ship Weight: 11 lbs.

This is a fine piece of equipment that allows you to assemble 10 frames at a time. It is adjustable so that you may assemble all 3 sizes. Place endbars between guides and run a bead of glue across knotholes. Insert tops and nail. Do the same for your bottoms. Keeps frames square. End the frustration if you are going to assemble more than 50 frames at a time-this will save you time!

658 WIRE CRIMPER
\$12.50 Ship Weight: 8 oz.

Wire your frames as normal. Run wire between the cogs on this tool to crimp and the wire will become as tight as a banjo string! Makes for easier embedding and better quality frames that the bees will work evenly.

693 EMBEDDER BOARD
\$8.00 Ship Weight: 4 lbs.

Place your wired frames on this board for embedding. The unit is adjustable so that you may lay deep, medium and shallow frames on it, to bring the surface flush with the center of the frame and foundation.

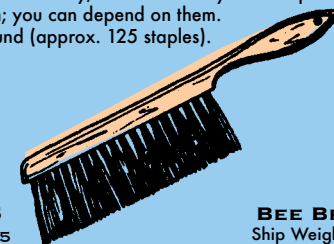

697 SUPPORT PINS
100/\$6.75 Ship Weight: 6 oz.

Support Pins work very well in the brood nest, but wiring is recommended in extracting supers. We recommend 2 pins in each end bar in the middle 2 holes.

654 HIVE STAPLES
\$6 Ship Weight: 2 lbs.

Sturdy copper coated staples hold your hives together when moving. Some manufacturers make a staple that will break easily, but these heavy thick staples are tough; you can depend on them. 1 pound (approx. 125 staples).

775 BEE BRUSH
\$4.75 Ship Weight: 1 lb.

This is really the quickest, cheapest and easiest way to remove those straggler bees clinging to frames at harvest time. Not recommended as a way to clear large amounts of bees from frames, as you can do a bit of damage to the bees. However, it is a handy tool and the bristles are quite soft for modest use.

#468 HONEY-B-HEALTHY
 \$23.50 EACH Ship Weight: 2 lbs.

Honey-B-Healthy is a feeding stimulant formulated with natural essential oils. Prevents mold and fungus in mixed syrup, boosts immune system, calms bees when sprayed, works to mask pheromones when combining weak colonies and improves queen introductions. Enough to make 24 gallons of syrup. We use it religiously.

#664 PAIL FEEDER
 \$5.75/EA Ship Weight: 2 lbs.

LID ONLY (#664A) \$2.50 8 oz.
 This is our favorite feeder. It is inexpensive, yet efficient. Place the pail over the hole in the inner cover and surround with an empty hive body and place you telescopic cover over it. Heat will not escape, so the bees can regulate temperature better. Robbers can not get at the syrup. Holds 1 Gallon of syrup. Try one today!

#ABB-16 AMINO-B BOOSTER
 \$24.00 EACH Ship Weight: 2 lbs.

Amino-B Booster is a specially formulated apriary blend of free amino acids that can be mixed with Honey-B-Healthy which enhances its attractiveness to bees and prevents fermentation. As a blend of free amino acids it is assimilated rapidly, directly through the midgut to the bee hemolymph and hemocytes, then transported to the sites where protein is needed for growth of the bee, both as larvae and as adults.

#686 CYPRESS ENTRANCE FEEDER
 \$3.75/EA Ship Weight: 1 lb.

These cypress feeders are boiled in linseed oil and will last and last. Truly a high-quality item. Caps included. You provide a quart mason or mayonnaise jar. These are also a great way to provide water for your bees.

#696 ADDITIONAL CAPS
 5 FOR \$3.50 Ship Weight: 8 oz.

#GTF PLASTIC 1 GALLON TROUGH FEEDER
 \$8.00 EACH Ship Weight: 2 lbs.

This is BY FAR THE BEST FEEDER AVAILABLE to get your bees fed efficiently. The low profile 360° circular trough will allow a large number of bees to feed at one time, while preventing drowning. It is not uncommon for bees to take down a gallon of syrup in 4 hours with this feeder! Place freshly made, warm syrup in the feeder and the bees will take it much faster. It is best to surround the feeder with an empty hive body for colony feeding, but many will use these for open feeding or watering as well. Try one today!

#423 PLASTIC 10 FRAME HIVE TOP FEEDER
 \$14 EACH Ship Weight: 3 lbs.

We have been using this feeder for over a year in our own apiary and really like it. We have successfully over-wintered 5 frame nucleus colonies with the smaller version of it below. It is constructed of high quality UV resistant plastic and will hold nearly 2 gallons. The bees can enter the feeder from either end and will not drown, due to the ingenious design. Feeders can be stacked for fast and efficient storage.

#423N (PL) 5 FRAME HIVE TOP FEEDER
 \$11.50 EACH Ship Weight: 2 lbs.

Same features as above 10 frame top feeder. Works perfectly with 5 frame nucs! Easy storage.

MITE-AWAY QUICK STRIPS CAT # MAQS
 20 PADS (TREATS 10 HIVES) \$48.00

MAQS™ is a Biopesticide. The thick pad used with Mite Away II has been replaced. The core of the MAQS™ is a plant-based gel which contains the formic acid. The strip is thinner than the height of a bee so it fits in the bee-space between hive parts making it much easier to apply.

In field trials the MAQS formulation achieved almost 100% kill of the varroa males in both drone and worker cells and over 95% kill of the phoretic mites. As well, it achieved excellent efficacy killing female varroa under the cap; 65 to 80% in drone brood, over 95% in worker brood.

FUMAGILAN-B CAT# 602
 .5 GRM. \$20.75 Ship Weight: 8 oz.
 2 GRM. \$46.95 CAT# 600 1 lbs.

The only drug that is effective against Nosema disease, which stresses overwintered colonies and reduces honey production. Feed 2 gallons of syrup in the fall and one in the spring. Use .5 gm. to make 5-6 Gallons and 2 grams makes 20-24 gallons. Along with the emergence of the newer Nosema Ceranae, it has also recommended by the CCD Working Group to use Fumagillan as a preventative of colony stresses that can lead to devastating disease.

Healthy bees live longer!

PIERCO DRONE COMB CAT# PDFRM
 \$3.00 EACH Ship Weight: 12 oz.

Bees need drone comb to be healthy. These frames are effectively used to increase your mating success for queen rearing. However, their best use is for mite control. Mites prefer drone cells, due to their larger size and the longer time that drones are in capped cells. You can decrease your mite levels by allowing the queen to lay up these frames. When capped, freeze them to kill mites and replace for the bees to clean out.

PIERCO® DRONE COMB FRAMES ARE BRIGHT GREEN, FOR EASY IDENTIFICATION IN THE HIVE.

Also in 5-Frame!

Call or email for Alaska, Hawaii, Puerto Rico and Foreign orders.

ORDER TOLL FREE: 1-877-529-9BEE

Call before visiting the shop. Appointments only.

ORDER ONLINE 24 hours a day: www.blueskybeesupply.com

We will make every effort to hold prices until February 2013. However, prices are subject to change, due to circumstances beyond our control. Website will always be current. **NO COD's or Rainchecks. Please have catalog item numbers ready when calling.**

Back Orders. We will automatically ship any item that is backordered. If you prefer not to backorder or to ship complete; please indicate when ordering. Otherwise, you will be charged for the item and extra shipping when the item is filled. We will be glad to hold your order to save you on shipping. Orders shipped as received. We do not offer a rush service and may experience delays in peak season.

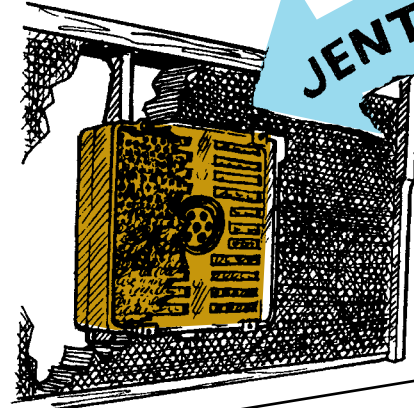

Please note that UPS will assess dimensional weight on some items, although light, that may be bulky and therefore require additional shipping charges. We have made every attempt to note these where possible. The UPS shipping charges on the page 11 are standard residential charges; should you live in a rural area where UPS levies a surcharge upon us, we will have to pass this back to the customer.

If you find your shipment **DAMAGED**, notify us immediately. Do not throw away or destroy the packaging. A claim will be filed with UPS and all materials must be available for inspection.

RETURNS are accepted within 30 days on unused items. Call or email for return authorization. Return by UPS GROUND, at your expense. Original shipping charges are not refundable. Items returned after 30 days may incur a 15% restocking fee.

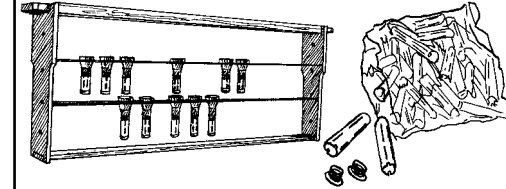

Mail-order payment is to be made by MasterCard, Visa, Discover, American Express, Money Order or Check. No Cash or COD's accepted. Order may be held until check has cleared. If a Money Order is sent, we will be able to fill the order upon receipt. There will be a \$20 recovery fee levied on all returned checks. Blue Sky Bee Supply, LTD uses Federal Automated Recovery Systems, Inc. to act on our behalf to collect on all dishonored checks. All returned checks will automatically be debited from your account. Most items are shipped FOB Hiram, Ohio--except for some of the larger processing equipment.

JENTER QUEEN SYSTEM

The Jenter Queen System is the easiest and best way to begin rearing the queens you always wanted to. It eliminates grafting and guesswork. A breeder queen is trapped in the plastic cell box placed in a frame and lays in plugs, which are removed and placed in a cup and plug holder to hang from your cell bar frame. Parts are reusable. You will need to purchase frames with cell bars and protector cages separately.

#330 COMPLETE JENTER KIT
PAYS FOR ITSELF! \$85.00 Ship Weight: 3 lbs.

#329 CELL PROTECTOR CAGES
Protects your cells or if left in too long, your emerging queens from killing each other. Includes caps.
30 COUNT \$24.50 Ship Weight: 1 lb.

#332 2 FRAMES WITH CELL BARS
Holds 26 cells. Designed to accept Jenter parts.
2 COUNT \$16.50 Ship Weight: 4 lbs.

#331 SPARE SET OF PLUGS
115 of A/B, 100 of C \$55.00 Ship Weight: 2 lbs.

#331A JENTER CELL PLUGS
115 Cell Plugs \$17.50 Ship Weight: 1 lb.

#331B JENTER STARTER CUPS
115 Cell Cups \$17.50 Ship Weight: 1 lb.

#331C YELLOW PLUG HOLDER
100 Plug Holders \$25.75 Ship Weight: 1 lb.

Grafting

Grafting requires a little more practice to achieve consistent results. However, it is the cheapest method to raise queens and the most satisfying. We recommend that you try this method, if you are tired of buying queens that just don't cut it. Produce your own!

#505 CELL BARS W/ JZB CUPS
2 BARS + 100 CUPS \$17.50 Ship Weight: 3 lbs.

#506 JZB PUSH-IN CUPS
100 CT. SMOKE \$8.50 Ship Weight: 2 lbs.

Makes it easier to SEE the grafts!

#333 CHINESE GRAFTING TOOL
Easiest to use. Plunger pushes larvae off tongue.
\$4.50 Ship Weight: 8 oz.

#266 STAINLESS STEEL TOOL
The best craftsmanship!
\$10.00 Ship Weight: 6 oz.

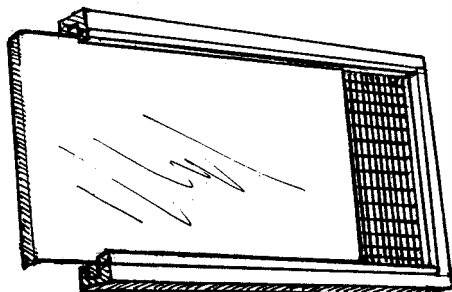

Don't waste those swarm cells ... make a split!

#507 CELL PROTECTORS
Covers capped cells to protect unhatched queens.
\$10.50 FOR 100 Ship Weight: 3 lbs.

#632 CLOAKE BOARD

\$32.25 Ship Weight: 6 lbs.
Developed by Harry Cloake, from New Zealand, this piece of equipment will enable you to raise high quality queens. When you have those queens with desirable characteristics, using the Cloake board will allow you to bank them until they are needed. Sue Cobey, of U.C. Davis and developer of the New World Carnolian, promotes this simplified method of queen rearing. This board enables you to manipulate a colony to be a swarm box, cell finisher and queen bank. This method requires grafting of larvae but simplifies production, so that every beekeeper can be successful raising their own queens. Full instructions provided.

QUEEN MARKING PENS

- #389R (RED: 3, 8) Ship Weight: 8 oz
- #389G (GREEN: 4, 9) \$6.75 EACH
- #389B (BLUE: 0, 5)
- #389 W (WHITE: 1, 6)
- #389Y (YELLOW: 2, 7)

These handy Queen Marking Pens will make it easier on you, no spilling, no balancing the bottle. Just a quick and easy stroke with these Markers will get the job done. It is definitely a must to mark your queen if you expect to find her easily. Make sure you use the international color code for marking for years ending in the numbers noted above.

TIP: To gain experience using a marking pen, practice marking drones if you are nervous about handling your queen.

#264 QUEEN MARKING TUBE
Ship Weight: 8 oz.

We have replaced our old marker with this new type. This tube can be used to hold and isolate the queen or for marking. Queens do not like the tube and must be coaxied in. The soft plunger will keep her prisoner until you are ready. Mark queen through the openings in the mesh. Gentler and safer on queens.

#264 MARKING DISC
Ship Weight: 8 oz.

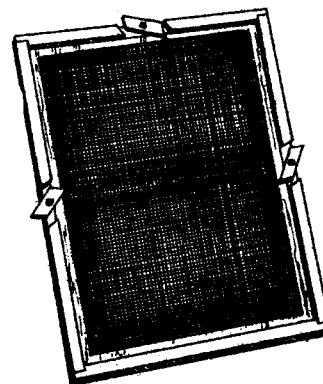

This disc can be gently placed over the queen on the frame to help mark her. No need to wrangle her or risk pinching her. The mesh will hold her down lightly, while you mark through an opening. The feet prevent you from pushing in too far.

#NUC-K 5 FRAME NUC KIT
\$24.95 Ship Weight: 15 lbs.

Our 5-frame nuc kit includes a deep body, migratory cover and a reversible bottom board. Nucs are used for drawing comb, making splits and mating queens. Nucs are very useful as a way to maintain your hive numbers to combat winter losses. Many beekeepers overwinter their late summer splits in them successfully.

#NUC-B 5 FRAME NUC BODY
\$12.50 Ship Weight: 8 lbs.
If you are trying to win the Best of Show for that honey frame category . . . or get comb drawn quickly, double up your nucs for fast & even drawing of foundation.

#694 DOUBLE SCREEN
\$19.95 EACH Ship Weight: 5 lbs. each

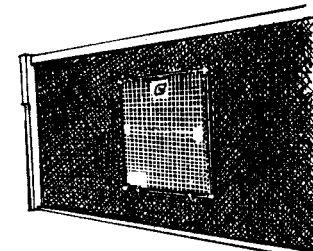

This piece of equipment will make your requeening FOOLPROOF. When you divide a colony put a Double Screen on top of the old colony and place the new split on top. The old colony below keeps the environment perfect for the split above, reducing stress. The old bees upstairs will return to the bottom leaving the younger, more queen accepting bees upstairs. The Double Screen can be removed and replaced with a queen excluder to run a double queen colony. Also useful for moving bees.

#SCATCH SWARM CATCH LURES
2/\$6.50, 5/\$14, 10/\$25.50 Ship Weight: 1 oz. ea.
Lure measures 2 3/4" long. Enough to last about 3 months. This lure replicates the nasanov pheromone, or the "come hither" scent scout bees use to mark a potential home site for its swarm. Very effective!

#251 CONE STYLE TRAP
\$22.50 EACH Ship Weight: 8 lbs. each
Made from wood pulp, the Cone Trap is easy to install and very effective. Use in combination with PheroQueen for best results. <<Due to size restrictions, 2-3 traps will ship at the 45 lb. rate and 4-6 traps will ship at the 65 lb. rate.>>

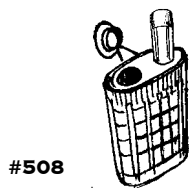

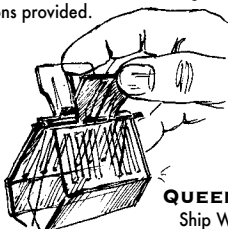

#260P PUSH-IN INTRO CAGE
\$4 EACH Ship Weight: 1 lb. each

The best, most successful way to introduce a queen is with a Push-In Cage. Fill the tunnel with queen candy. Push the cage into a frame in the center of the brood nest with open cells and emerging brood, no adult bees. Release the queen and the attendant workers into the large 5.75" X 5.125" cage. As the queen starts to lay eggs, she will give off queen pheromone, which will insure acceptance. Putting the cage over the soon to emerge brood insures nurse bees to care for the new queen. The bees can release her or you can manually do so after she has started laying. Reduce to 9 frames to give the bees more room to crawl on the cage. Also useful for isolating the queen to prepare for grafting.

#341 QUEEN CATCHER
\$5.75 Ship Weight: 8 oz.

This little gadget makes catching queens on the comb a breeze. The spring action snaps the cage shut around the queen and the worker bee sized slots allow them to come and go, while keeping the queen inside. You don't have to hurt another queen trying to isolate her!

#508 JZsBZs QUEEN CAGES
100 FOR \$20 Ship Weight: 2 lbs.

JZsBZs cages are the original. The advantages are many; clearly the best, is the ease of introduction. Simply slide it in between the frames with the candy tube pointing up. Never worry about where you will put your queen cage again. The colony will also have better access to the queen through this cage and you will have better acceptance. Break-away bar in bottom excludes queen, but allows workers in, if desired. Impregnated with pheromone for better introductions.

#223 JZsBZs CANDY TUBE CAP
100 FOR \$8.75 Ship Weight: 8 oz.

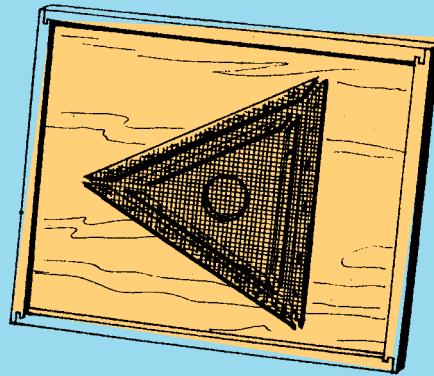

This cap fits over the end of the candy tube of the Queen Cage above, to keep the queens from emerging from the tub. The bees outside the cage can't access the candy with the caps in place. It is also a good idea to cover the candy when shipping queens with package bees or queens in the battery boxes, to keep the queens secure. Also includes an attached strip for hanging the cages in packages.

Queen candy is made by mixing thick sugar syrup or corn syrup into powdered sugar to a dough-like consistency. Although you may mix honey into the powdered sugar for your own use, it is illegal to ship queens with honey made candy. Use immediately after mixing, as not to harden.

528 ADJUSTABLE MOUSE GUARD

\$3 EACH Ship Weight: 1 lb.

Metal mouse guard is adjustable, to allow the bees to pass freely, when activity in the hive is increased, but closes when the weather cools and mice are looking to stay warm in a clustered hive, allowing only bees access to the hive.

685 PLASTIC QUEEN EXCLUDER

\$4.50 EACH Ship Weight: 1 lbs.

Affordable way to keep your queen out of your honey supers. These are a must if you plan to produce comb honey. The openings are perfectly spaced. These are easy to clean by flexing in the cold.

373 VENTILATED INNER COVER

\$10 EACH Ship Weight: 3 lbs.

Used to move a colony during hot conditions. Also provides better ventilation during the year when bees cover the front of hive. Base is flat. End sides on top extend 3/8" higher leaving long ends open, when covered to increase airflow. This is something worth trying-it works!

774 TRIANGLE ESCAPE

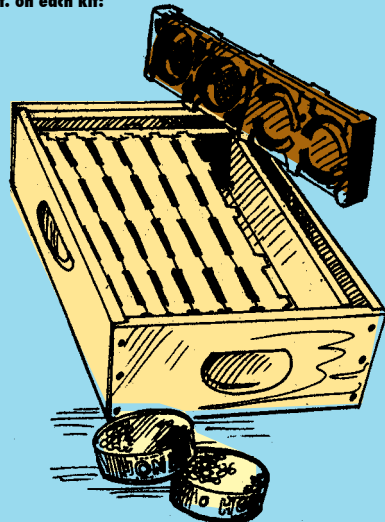

EACH \$14.50 Ship Weight: 5 lbs.

The triangle escape is placed triangle down between your brood nest and honey surplus. Bees enter hole on opposite side, from super and can not re-enter once inside the brood chamber. Leave on overnight but not more than 48 hours.

256 8 FRAME ROSS ROUND SUPER

\$67.95 Ship Weight: 14 lbs.

These are specially designed Ross Round supers that hold 7 frames, instead of 8. Includes rings, frames and super. Comes assembled. Purchase foundation separately for \$4.50 for 7 sheets. **\$8 rebate through May 31st. on each kit!**

254PQ8 8 FRAME QUEEN EXCLUDER

\$4 Ship Weight: 2 lbs.

Plastic queen excluder will keep your queen out of the supers. This is a must if you are going to make comb honey. We also think running a two queen 8 frame hive is the most efficient method of honey production out there-you can use queen excluders to do this!

254ES 8 FRAME TRIANGLE ESCAPE

\$14 Ship Weight: 4 lbs.

Triangle faces down towards your brood chamber. Bees will clear from the supers within 24 hours. Do not leave on more than 48 hours as bees will eventually make their way back.

SD-BOT-8 8-FRAME SUNDANCE

\$61 Ship Weight: 14 lbs.

New for 2012, is the 8-frame version of the best in market, Sundance pollen trap. Now available as a bottom mount, this trap will allow you to gather high-quality pollen with ease!

#792

COMPACT 4 FRAME EXTRACTOR W/LEGS

\$298.00

The 18/10 stainless steel, 22-gauge tank, is 16" in diameter and 23" tall. This extractor comes with legs. The metal gears crank easily due to their 3:1 cranking ratio. The extractor will handle 4 shallow (5 3/8"), 4 medium (6 1/4"), or two brood frames (9 1/8") each time you extract. Extractor carries a full 1 year warranty. Crank is on top for ease of use. Ships at 72 lbs.

#783

SPEED KING UNCAPPING KNIFE

\$99 SHIP WEIGHT: 4 LBS.

This knife is perfectly preset for uncapping. It measured 2" wide by 10" long. These have been the standard knife for over 20 years. Knife is guaranteed by the manufacturer for one year.

See Page 3 for 2 oz. bears!

PL-35

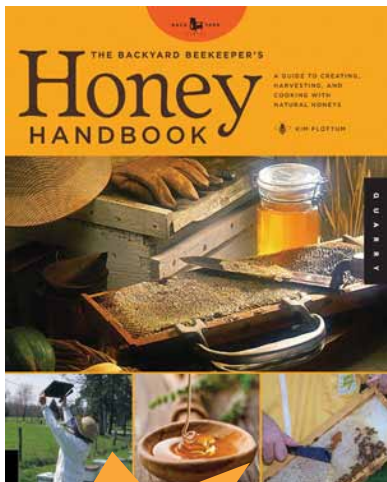

\$7.25 EACH

3.5 GALLON PAIL

Ship Weight: 6 lbs.

We are happy to offer this smaller sized honey pail. It makes handling honey much easier. Instead of lifting 60 lbs. (5 gallon pail), try no more than 42 lbs! Much easier on the back when processing or storing your crop! Includes safety-seal strip/gasketed lid (which is also compatible with our 5 gallon pail).

HHBK HONEY HANDBOOK
 \$24.95 Ship Weight: 2 lbs.
 The ONLY book of its kind. This book covers the next level in honey marketing. Production, harvesting and processing of varietal and artisan honey.

BLUE SKY REFRACTOMETERS
 \$49.95 BASIC MODEL (BLU-1B) Ship Weight: 4 lbs.
 \$69.95 ATC MODEL (BLU-2ATC)

We have finally found high quality analog refractometers that are affordable for every beekeeper. If you have begun selling or entering your honey in competition, a refractometer is a must. Make sure your honey is low moisture, so that you can feel confident! Includes refractometer, case, calibration solution, adjusting screwdriver, sample pipette and full instructions. No batteries needed! ATC model will automatically compensate for temperature. The basic model will require calibration when the ambient temperature varies greatly from temperature, which is 68 °F.

digital!

MRFR DIGITAL REFRACTOMETER
 \$325 Ship Weight: 4 lbs.
 Made in the USA and offers unbeatable accuracy, through its digital readout. The MISCO Honey Refractometer features a precision-machined stainless steel sample well with a cover that helps prevent further absorption of water. At the bottom of the sample well, a sapphire prism, the next hardest substance to diamond, provides a virtually unscratchable measurement surface. Optional Waterproof Case or Rubber Armor are \$24.95 each.

PEXTR PLASTIC EXTRACTOR
 \$155 Ship Weight: 31 lbs.

This plastic extractor is a great value for the hobbyist beekeeper. If you intend to have just one or two hives, this may be the unit for you. It will tangentially extract 2 deep frames at a time. Includes honey gate and lid.

#900 COLD UNCAPPING KNIFE
 \$20 Ship Weight: 3 lbs.
 This is the most affordable method of uncapping your frames. It has a sharp serrated blade designed for uncapping a bee frame. Some folks will heat one in boiling water and swap them out as the knife cools, using two.

#787 CAPPING SCRATCHER
 \$5.25 Ship Weight: 4 lbs.
 Capping Scratchers are used to get to low spots of the honey frame. Some folks will use these instead of a capping knife. It does work, but you will do more damage to the combs and make your filtering a little more difficult. Perhaps its best use is to pull capped drone brood from a frame to help identify the mite load that your bees may be carrying and get a better picture of when you may need to think about treating for mites.

#785 NYLON STRAINER BAG
 \$4.50 Ship Weight: 7 oz.
 This bag is designed to work 2 ways with a 60 pound pail. First, you can place the bag in the pail and pour honey into it and gently pull the bag out, leaving you with strained honey. Secondly, when placed inside a bottling tank and unstrained honey poured in, you can bottle continuously your clear filtered honey as needed.

#805 PLASTIC BOTTLING PAIL
 \$24.95 Ship Weight: 8 lbs.
 60 Pound standard 5 gallon plastic bucket fitted with a 1-1/2" plastic honey gate. Lid with gasket included. If used with a nylon strainer bag (above) it becomes a handy bottling unit for a hobby beekeeper.

#804C 600 MICRON COURSE FILTER
#804M 400 MICRON MED FILTER
#804F 200 MICRON FINE FILTER
 \$6.50 EACH Ship Weight: 1 lb. each

#834 PLASTIC HONEY GATE
 \$11.50 Ship Weight: 1 lb.

#PL-5 5 GALLON HONEY PAIL
 \$7.75 Ship Weight: 7 lbs.

PL-35 3.5 GALLON HONEY PAIL
 \$7.25 Ship Weight: 6 lbs.

Bottles are in the front of the catalog!

#783 SPEED KING UNCAPPING KNIFE
 \$99 SHIP WEIGHT 4 LBS.
 This knife is perfectly preset for uncapping. It measured 2" wide by 10" long. These have been the standard knife for over 20 years. Knife is guaranteed by the manufacturer for one year. Ships at 3 lbs.

#833 STAINLESS DOUBLE SIEVE
 \$39.00 Ship Weight: 4 lbs.
 This Double Sieve is made to go under the extractor outlet. A removable coarse, then fine screen, filter out 95% of the wax particles. All you will need to filter your honey. Fits a 5 gallon pail and other containers up to a 14" diameter. All Stainless Steel.

#804 BOTTLING KIT
 \$39.95 Ship Weight: 10 lbs.
 The bottling kit includes a bottling pail (with honey gate installed), gasketed lid and all three sizes of filters.

PL-1 EXTRA PAIL LIDS
 \$2.55 EACH (GASKET W/SEAL) Ship Weight: 2 lbs.

All you need to bottle!

NEW!

8 pockets & 2 hive tool holsters on BB1 Deluxe.

3 pockets & 1 hive tool holster on BB501 Basic.

BB1 Deluxe w/ waterproof knee patches protect when kneeling!

Roomy "Throw-Back" veil with ring loop finger-pull zippers included.

Elastic wrists w/ finger loops.

Durable 67% polyester, 33% cotton.

Gloves & boots not included.

Jacket has an elasticized waist with adjustable toggle.

Ankle zips on BB1 ONLY. Elastic ankles and cuffs for both style suits.

Express yourself with 12 unique COLORS!

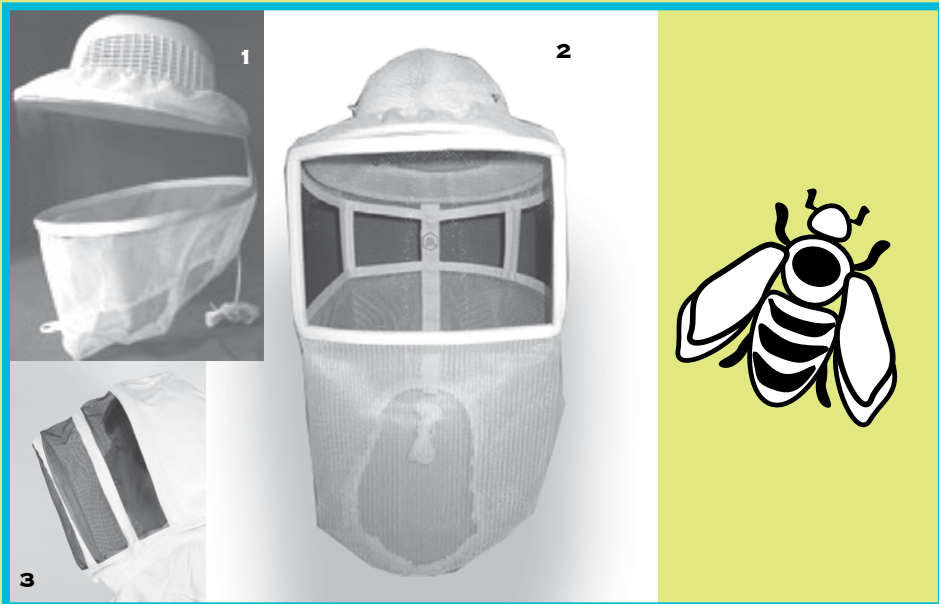

Available Colors (other than white), from left to right: Nasturtium, Lilac, Maize, Daffodil, Pink, Apricot, Lavender, Biscuit, Mint, Denim, Sage and Ivory.

Matching "Retro" round veil available for BBwear. Add \$3 to item.

#BB6 (ages 4-10) #BB6A (age 12) 27

1) ROUND VEIL Ship Weight: 1 lb.
#704 \$16.00 W/TIE DOWN
#706 \$19.50 W/ZIPPER

Economical round veil made with high quality materials. Epoxy coated steel screen. Flame retardant top and bottom mesh. (sold without helmet)

PLASTIC HELMET Ship Weight: 3 lbs.
#708 \$11

Rigid plastic helmet will not lose its shape. Excellent ventilation and adjustable head band helps with air circulation. Tabs at base keep your veil from riding up.

2) SQUARE VEIL Ship Weight: 1 lb.
#701 \$17.50 W/TIE DOWN
#703 \$20.50 W/ZIPPER

Same craftsmanship as above, but folds for easy storage. This is the most popular style of veil (sold without helmet)

VENTILATED HELMET Ship Weight: 2 lbs.
#709 \$16.95

This style of helmet is woven from heavier cords than most of this style. Features adjustable headband with absorbent brow. Pop rivets keep veil down. This is a great sun helmet. It is excellent.

HATLESS VEIL Ship Weight: 2 lbs.
#715 \$22.50

This is the cheapest way to have portable head protection. Great to carry in the truck and throw over your baseball cap. Is designed around a square folding veil and needs no helmet.

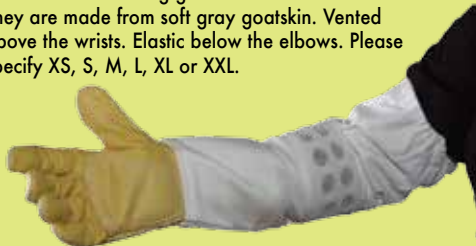

PLASTIC GLOVES Ship Weight: 1 lb.
#713 \$11

Value glove has a double layer, which adds to the ruggedness of the glove. The gauntlets are made from highly woven cotton, are finished off with elastic and fall below the elbow for a comfortable fit. Please specify S, M, L or XL.

VENTED GOATSKIN GLOVES Ship Weight: 1 lb.
#GLV-G \$18

This is the nicest fitting glove we have seen in a while. They are made from soft gray goatskin. Vented above the wrists. Elastic below the elbows. Please specify XS, S, M, L, XL or XXL.

WOMEN'S DELUXE VENTED GLOVES Ship Weight: 1 lb.
#717 \$23.50

This glove has shorter fingers for a better fit. We only carry the medium size, which should fit someone with size 6-7 hands. Cowhide. Gauntlet has padding around the wrist with vent holes covered by mesh for extra protection. The palm is double layered and stitched and will outlast all other gloves.

You'll appreciate the difference that our Blue Sky DuraBee™ suit provides. Ours is 100% USA grown heavy-duty cotton, sewn right here with the best quality snag-free zippers and elastic to provide many years of use—even under the toughest of conditions. Our special cotton weave has been proven to provide the best sting protection of any suit on the market.

DuraBee™ suits are available in the BeeMaster™ full suit or our jacket. Both options come with a 1/2 zipper ready to receive the hood of your choice (ordered separately).

All **DuraBee™** suits have ring pull zippers, velcro in the front, back and elasticized wrists to keep even the sneakiest bee out. The **NewBee™** jacket has two front pockets and heavily elasticized band that falls above the hip. The **BeeMaster™** full suit has leg zips, padded knees, gusseted crotch, double-ended main zip, front and rear pockets, two hive tool pockets, a breast pocket with pencil holder and D-rings for veil tie downs.

986 BEE MASTER™ FULL SUIT
 S, M, L: \$75 / XL-4XL: \$80 Ship Weight: 4 lbs.
 VEIL SOLD SEPARATELY - choose on these 2 pages

989Z DURABEE™ JACKET
 S, M, L: \$57 / XL-4XL: \$60 Ship Weight: 3 lbs.
 VEIL SOLD SEPARATELY - choose from these 2 pages

3) 990-DZ DOMED HOOD (WITH 1/2 ZIP)
 \$29.95 Ship Weight: 2 lbs.
 LARGEST DOMED VEIL OUT THERE! SEE OPPOSITE PAGE FOR DEPTH.

CHILD SUITS ARE OFFERED IN OUR BBWEAR LINE ONLY. SEE PAGE 27.

\$8.00 Ship Weight: 1 lb.

BYB THE BACKYARD BEEKEEPER

\$24.95 (165 PAGES)

Ship Weight: 2 lbs.

New expanded printing! Editor of Bee Culture, Kim Flottum, has written an excellent book for the hobby beekeeper here. Everything from beginner to advanced topics are discussed. Especially nice are the sections on value-added products and marketing.

BBK BETTER BEE KEEPING

\$24.95 (160 PAGES)

Ship Weight: 2 lbs.

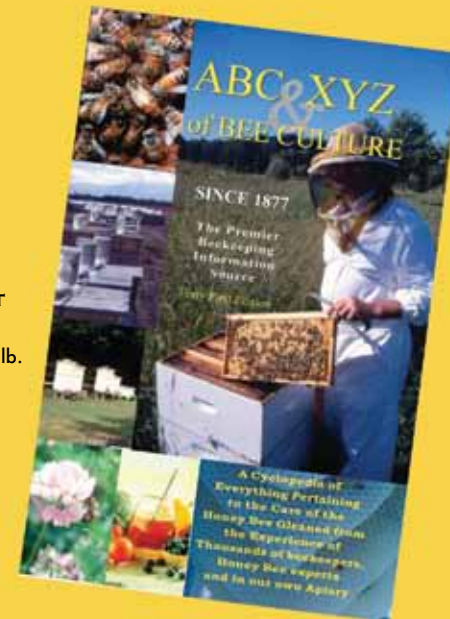

New for 2011 (available June)! Editor of Bee Culture, Kim Flottum, has written an excellent book for intermediate to sideline beekeepers with advice on growing their business, and doing things right. Business growth, wintering, better pest management, running a queen business, but noteworthy...the basics of land based honey production...grow your own honey how to. This is worth the prices of the book alone. Our website will be updated when available.

IE

INCREASE ESSENTIALS

\$20

Ship Weight: 2 lbs.

A new book expanded from Bee Culture articles. A practical look at various methods to increase your colony holdings, and how other beekeepers do it. Suggests standards for nucleus colonies. Shows how beekeepers are wintering nuclei. Well illustrated. This book will help you take the step to increasing your colonies for growth or maintaining populations for survivorship. A must-have book for every beekeeper!
